REASONS FOR ALLOWANCE

1. Claims 12-16, 18-23, 35, 45-54, 107-110, 113-115, 118-120 and 137-141 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Claim 12 is allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest, "each of the plurality of diffractive elements individually provides reciprocal focusing between the first port and the second port" as set forth in the claimed combination. Claims 13-16, 18-23, 35, 107-110, 113-115, 137, 138, 139 and 140 are also allowable based upon their dependence on claim 12.

Claim 45 is allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest, "such that each diffractive element individually acts to provide reciprocal focusing between the first port and an output port of the optical device" as set forth in the claimed combination. Claims 46-54, 118-120 and 141 are also allowable based upon their dependence on claim 45.

The prior art of record, Maeda et al teaches an optical apparatus comprising a substrate that has a first and second port and a plurality of diffractive elements within the substrate but does not teach that each diffractive element individually acts to provide reciprocal focusing between the first port and an output port of the optical apparatus and there is no motivation or teaching to modify this teaching as derived.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
